

Report on the State of Loneliness (Profusion Gold)

Report on the State of Loneliness explores, in depth, the Romanian landscape over more than 70 years, subtly locating the history of a myriad of individuals and events within their broader European context, as well as describing the conflicts and opportunities of the post-Accession generation. Comparable in its dynamic narrative to the works of an author like Gunter Grass, Report is one of the few works of this kind to have yet come from the literary tableau of the Accession countries.
