

Airbrushing for Railway Modellers

The airbrush is an essential tool for modelers striving for professional-looking results. It can greatly enhance the quality of your modeling output, whether applying a full livery scheme or simply blending in areas of new paintwork. A good airbrush will offer unparalleled levels of finish and consistency, as well as the chance to create unique effects such as weathering and stenciling. This book reveals how anyone can use an airbrush effectively, provided that a few basic rules are followed. All of the necessary techniques are described, along with a wealth of practical guidance and detailed advice on choosing a spraying set-up to match your own needs and budget.
