

Side Effects

Psychoanalysis works by attending to the patients side effects, what falls out of his pockets once he starts speaking. Undergoing psychoanalytic therapy is always a leap into the darklike dedicating our hearts and intellect to a powerful work of literature, its impossible to know beforehand its ultimate effect and consequences. One must remain open to where the side effects will lead. Erudite, eloquent, and enthrallingly observant, Adam Phillips is one of the worlds most respected psychoanalysts and a boldly original writer and thinker and the ideal guide to exploring the provocative connections between psychoanalytic treatment and enduring, transformative literature. His fascinating and thoughtful Side Effects offers a valuable intellectual blueprint for the construction of a life beholden to no ideology other than the fulfillment of personal promise.

Because Side Effects is brilliant: a noir psychological thriller like a 21st-century Marnie, or Rosemarys Baby that is also an acid satire on big Fact sheets about HIV/AIDS treatment information, the prevention of mother-to-child transmission, and HIV treatment side effects.
