

From the man 60 Minutes called America's top undercover cop comes a gripping companion to his bestselling books, *Deep Cover* and *The Big White Lie*. Drawing on the most dangerous deep cover assignment of his DEA career, *TRIANGLE OF DEATH*, is a mystery/thriller that takes the reader undercover on the international hunt for those responsible for the torture and murder of his former partner. Publisher's Weekly said *TRIANGLE OF DEATH* was as mean and rapid-fire as dope dealer's Uzi. New York Times called it compellingly authentic. At the heart of the novel is a drug called the White Queen: super-potent, orgasmic, and immediately addictive. The cartel wants it, the Mafia will push it, terrorist cells will kill for it, and corrupt regimes will trade anything—oil, guns and death—for the cash it will generate. But one man, rogue undercover agent Michael Levine, has found a white queen of his own, the beautiful woman at the heart of an impenetrable organization known as The Triangle of Death. She is the daughter of an escaped Nazi Paraguayan drug lord, the lover of a beautiful young man, and the mastermind behind a deadly conspiracy. And she knows that Levine is not who he says he is. Now, to save his own cover, he must kill for her. From South America to the Middle East to Monte Carlo, *Triangle of Death* is the white knuckle, thrill-a-second race through an explosive underworld where deals are made with multi million-dollar down payments, identities are guarded, stolen and smashed—and the most dangerous players of all are the ones you dared to trust.
