

In the Blue Hour: A Novel

Elise Brooks dreams of a car accident on an icy road. Weeks later, her beloved husband, Michael, is killed in just such a crash. Now, overcome with grief and uncertainty, Elise believes his spirit may be following her in the form of a raven, trying to tell her something from beyond the grave. Desperate to understand the signs, Elise embraces both the Native American wisdom she grew up with and the world of psychics and seers. So when a tarot-card reader suggests she take a journey to the mysterious address found in Michael's old jacket, she embarks on a cross-country trek to follow the clues. Accompanied by Tom Dugan, an engineer and scientist who does not believe in psychics, mediums, or the hoodoo conjure woman they encounter on the road, Elise navigates the rituals and omens of the spirit world in an attempt to unravel the mystery of her husband's message.
