

Ten Thousand Islands (A Doc Ford Novel)

Government agent-turned-marine biologist Doc Ford sails an endless sea of questions when he agrees to investigate a death from the past. Years ago, off Floridas Gulf Coast, a teenaged girl found an ancient gold medallion. Then, she began having nightmares. Then she was found hanging from a tree. Now, years later, the girls mother is being terrorized with break-ins, phone calls with no one there and her daughters grave has been dug up. Somebody wants that medallion. The search for answers will lead Doc through a shadowy world of ancient ritual and modern corruption, to an evil that was born in the past but lives in the present
